SUMMARY

Product engineer and founder. I ship web, mobile and Chrome extension products end to end, integrate LLM features into production apps, and do developer relations for AI companies. Founder of DMR Labs Ltd (UK); built and sold InfluOS; grew online communities of 175,000+ combined members.

EXPERIENCE

Founder & Product Engineer, DMR Labs Ltd, Remote (UK company) Aug 2025 - Present

- Shipped 10+ products in year one: web apps, mobile apps and Chrome extensions, most as the solo builder from scoping to production.
- Own the full lifecycle: product decisions, UI, backend, authentication and payments, deployment, post-launch iteration.
- Client work under NDA; anonymized case studies available on request.

Product Developer (Contract), Omnix Türkiye, Remote Jun 2025 - Present

- Delivered 7 complete products (4 mobile, 3 web + mobile) with integrated AI features for clients in Germany, the US and Türkiye.
- End-to-end ownership: UI, backend, LLM integration and releases on the App Store, Play Store and web.

Founder, Tesla Owners Türkiye, Remote May 2023 - Present

- Founded and grew Turkey's largest independent Tesla community: 25,000+ followers on X plus Telegram and WhatsApp groups.
- Completed 10+ brand collaborations, including global Tesla accessory brands JOWUA and Tesery; recognized by Tesla Türkiye management.

Community Lead, Yapay Zeka (X community), Remote Jun 2024 - Jul 2026

- Grew and ran Turkey's largest AI community on X to 150,000+ followers.
- Owned content strategy, daily publishing and audience engagement at national scale.

Co-Founder, InfluOS, Remote Jan 2026 - Jun 2026

- Co-built an AI influencer and image/video generation platform; reached £6,000 gross volume within 3 months of launch (£3,000 in month one).
- Sold the product after 6 months.

Ambassador (Contract), MiniMax, Remote

Jan 2026 - Apr 2026

- Represented MiniMax to the Turkish developer community: model reviews, hands-on demos, giveaways and adoption campaigns.

DevRel & Product Consultant (Contract), Blackbox AI, San Francisco (Remote)

Dec 2025

- Benchmarked agentic coding tools hands-on against Claude Code and other leading tools; delivered prioritized product recommendations directly to the product team.
- Managed developer community engagement.

Technical Support Specialist (Part-time), Saganetwork Telecommunication, Ankara

Jun 2019 - Oct 2021

- Supported hosting and game servers (setup, configuration, management) while still in high school; resolved customer tickets directly.

EDUCATION

B.Sc. Mechatronics Engineering, Atilim University, Ankara

Oct 2023 - Jun 2027 (expected)

High School Diploma, ODTÜ Geliştirme Vakfı Okulları

2018 - 2022
